

WEEK COMMENCING: 23/03/20

HOME FUN!

Continue Your Term Project

As we are in the season of Spring, why not explore and discover plants and animals, outdoors? You have two options for your term project ☺:

Option 1: Create a poster of a life cycle of an animal of your choice. E.g. life cycle of a frog or a butterfly.

Spring is perfect time to explore our countryside and identify young animals. Be as creative as you want to be. Make it 3D if you wish!

Option 2: Grow a plant in a pot and keep a diary. You can take photos of its growth or draw pictures. E.g. you can plant a sunflower seed, beans or peas. You don't have to bring in the plant to the classroom but share your diary and the pictures.

Which option will you choose? I can't wait to see your project ☺

You can do both options if you wish!! Have fun!

Tiny Explorers' Diary:

Keep a weekly diary.

Get out and about in your garden or go for a walk with your family.

Write down what you see and what you hear!

CLASS 1/2H

Family Book Club

Continue reading.

Share your books with your siblings or your family.

Keep a list of the titles you have read.

Mathletics and Education City

You all have your log-ins; they are in your Red Communication Book.

There is no deadline set – so that you can attempt questions and games at your pace ☺

Have fun!

Creative Genius!

Can you make an Easter card for your family?

You can even make one for someone elderly in your village or town, who may be feeling lonely, to cheer them up! (Post it through the letter box but make sure you go with an adult like your mum or dad.)

Things to remember

- Please continue to wash your hands
- Remember to stay safe
- Help your parents in and around the house
