

## Y5 Home Learning Work

Dear children and parents,

I have designed this pack for children to continue their learning at home. There is no requirement to print any material, although I have included attached sheets if you wish to do so. In addition, children were sent home with (or posted) an exercise book for 'Home Learning' along with various printed resources, their online logins and a pencil to ensure they have the materials needed to continue their learning at home. In addition to the academic content below, I am sure you have plans to incorporate physical activity (Joe Wicks is live online every weekday at 9am) and learning through play (board games, etc.) while the children are at home.

Please note:

The homework set below is intended to last for 2 weeks. There will be no school/homework set over the Easter holidays.

Twinkl, an education resource support website, have offered free access for parents for one month to assist with home learning, please see the letter attached below for more information (including an access code).

The work set is for the purpose of learning at home while the school remains closed. However, your child's wellbeing is of paramount importance during this uncertain time and there will be no repercussions for those children who have not managed to complete all tasks.

Should your child wish to further supplement their home learning I can recommend:

- Target Your Maths books by Stephen Pearce. These books are used to consolidate learning in school and they are available on Amazon along with answer books.  
[https://www.amazon.co.uk/s?k=target+your+maths&i=stripbooks&ref=nb\\_sb\\_noss\\_2](https://www.amazon.co.uk/s?k=target+your+maths&i=stripbooks&ref=nb_sb_noss_2)
- BBC Bitesize (online) has information on a variety of curriculum topics along with handy videos, these are designed specifically for children to help with home-based work. <https://www.bbc.co.uk/bitesize>
- Currently, Master the Curriculum have free access to **mixed objective** maths content for respective year groups. I have been using the 10-minute maths with 4/5N and it is a great way to keep prior learning fresh in their minds. Keeping tasks short and practising them often is the best way to reinforce prior learning. Please note not all resources are free on this site – look for 'mixed objective' material.  
<https://masterthecurriculum.co.uk/>
- Twinkl has a host of resources for all subjects. Please take an opportunity to browse this website (you also have free website access outlined in a below attachment) for any worksheets and activities your child may enjoy. <https://www.twinkl.co.uk/search?term=>
- Look at books with your child. They might read to you and you could read the same passage, modelling intended expression. You could also ask them questions based on what they have just read. Google reading VIPERS to gain more insight into questions that will support curriculum requirements.  
<https://www.literacyshedblog.com/blog/reading-vipers>
- There is a free e-book library on Oxford Owl – you just need to register for a free account to access these.  
<https://home.oxfordowl.co.uk/books/free-ebooks/>
- You could even make a scrap book or journal documenting this period of your lives.
- There are free drawing classes provided by famous illustrators as detailed on:  
<https://www.fastcompany.com/90478307/stuck-at-home-take-free-drawing-classes-from-famous-illustrators>

Finally, I wish you and your families well and, although the current situation is a challenge for us all, I will endeavour to send home school work to support your child's learning for as long as necessary but do look forward to the time when we can welcome all children back to school once this has passed. Until then, my thoughts are with all of you – Mrs New.

## Greeting

Your friendly hello.

Dear Principal Aseesh,

## Introduction

A brief explanation of the opinion you are going to express.

I am writing to **insist** that you allow our school to play rugby league as an official school sport. **My reasons are** very clear and simple - it would be our passion for rugby league. As we support the Queensland Maroons, it would be an opportunity for rugby league fans to follow in their heroes' footsteps and **it would** get girls playing in a male-dominated sport.

**Firstly**, as Queenslanders, we are passionate and unwavering supporters of rugby league. It can be a long and tiresome wait for the State of Origin campaign to begin. **If we were to** play rugby league at school, **it would** be like having our own school State of Origin all year round! The students playing **would** be passionate and try hard, as many of them are already rugby league fans.

## Reasons

A sensibly ordered list of reasons, including time conjunctions.

**Secondly**, I know so many of my fellow students and I are outlandish about the greatest rugby league team to ever play... The Queensland Maroons! My friends and I often talk about our favourite player and watch him on television. **If we were to** play rugby league at school, I would love to have an honorary Maroon! Players such as Cameron Smith and Greg Inglis are phenomenal role models for the students of our schools and we would love to play like them one day.

**Finally**, rugby league is currently only played by men. **This is highly unfair!** There are lots of girls in my class that are very talented at sports. **I think** these girls **should** be treated the same as me and have the chance to play rugby league.

Principal Aseesh, Hammersville State School is already a magnificent school. **Please** make it even more so **by** bringing rugby league to our school!

Yours sincerely,

Mason Bennet
