

Home learning- Timetable of tasks

Week beginning: 21 st September 2020		Class: 5/6B		Year Group: 5						
	Monday	Tuesday	Wednesday	Thursday	Friday					
Objectives	<p>SPOKEN LANGUAGE</p> <ul style="list-style-type: none"> • Articulate and justify answers, arguments and opinions • Participate in discussions <p>READING COMPREHENSION</p> <ul style="list-style-type: none"> • Continue to read and discuss an increasingly wide range of fiction, poetry, plays, non-fiction and reference books or textbooks • Summarise the main ideas drawn from more than one paragraph, identifying key details that support the main ideas • Identify how language, structure and presentation contribute to meaning <p>WRITING COMPOSITION</p> <ul style="list-style-type: none"> • Identify the audience for and purpose of the writing, selecting the appropriate form and using other similar writing as models for their own • Select appropriate grammar and vocabulary, understanding how such choices can change and enhance meaning • Assess the effectiveness of their own and others' writing • Ensure the consistent and correct use of tense throughout a piece of writing <p>SPaG</p> <ul style="list-style-type: none"> • Recognise vocabulary and structures that are appropriate for formal speech and writing, including subjunctive forms • Use the perfect form of verbs to make relationships of time and cause 									
Cross curricular links and objectives	<table border="0" style="width: 100%;"> <tr> <td style="width: 25%;"></td> <td style="width: 25%;"></td> <td style="width: 25%;"> <p><i>H12 (PSHE) - that bacteria and viruses can affect health and that following simple routines can reduce their spread.</i></p> <p><i>H23 (PSHE) - About people who are responsible for helping them stay healthy and safe; how they can help these people to keep the healthy and safe.</i></p> <p><i>R7 (PSHE) - to understand that their actions affect themselves and others.</i></p> <p><i>R11 (PSHE) - to work collaboratively towards shared goals.</i></p> <p><i>H2 (PSHE) - how to make informed choices</i></p> <p><i>L1 (PSHE) - to research, discuss and debate topical issues, problems and events that are of concern to them and</i></p> </td> <td style="width: 25%;"> <p><i>Develop a chronologically secure knowledge and understanding of British history and develop a sense of empathy of how life was for children and know why periods of time changed.</i></p> <p><i>I can explain what life was like for a child in Victorian Britain and know why they worked.</i></p> </td> <td style="width: 25%;"> <p><i>H10 (PSHE) - to recognise, predict and assess risks in different situations and decide how to manage them responsibly</i></p> <p><i>H23 (PSHE) - about people who are responsible for helping them stay healthy and safe; how they can help these people to keep them healthy and safe.</i></p> <p><i>L10 (PSHE) - to recognise the role of voluntary, community and pressure groups, especially in relation to health and wellbeing.</i></p> <p><i>Construct informed responses that involve thoughtful selection and organisation of relevant historical information what jobs children did; worked in coalmines, chimney sweeps, farm hands, mill workers, domestic servants.</i></p> </td> </tr> </table>							<p><i>H12 (PSHE) - that bacteria and viruses can affect health and that following simple routines can reduce their spread.</i></p> <p><i>H23 (PSHE) - About people who are responsible for helping them stay healthy and safe; how they can help these people to keep the healthy and safe.</i></p> <p><i>R7 (PSHE) - to understand that their actions affect themselves and others.</i></p> <p><i>R11 (PSHE) - to work collaboratively towards shared goals.</i></p> <p><i>H2 (PSHE) - how to make informed choices</i></p> <p><i>L1 (PSHE) - to research, discuss and debate topical issues, problems and events that are of concern to them and</i></p>	<p><i>Develop a chronologically secure knowledge and understanding of British history and develop a sense of empathy of how life was for children and know why periods of time changed.</i></p> <p><i>I can explain what life was like for a child in Victorian Britain and know why they worked.</i></p>	<p><i>H10 (PSHE) - to recognise, predict and assess risks in different situations and decide how to manage them responsibly</i></p> <p><i>H23 (PSHE) - about people who are responsible for helping them stay healthy and safe; how they can help these people to keep them healthy and safe.</i></p> <p><i>L10 (PSHE) - to recognise the role of voluntary, community and pressure groups, especially in relation to health and wellbeing.</i></p> <p><i>Construct informed responses that involve thoughtful selection and organisation of relevant historical information what jobs children did; worked in coalmines, chimney sweeps, farm hands, mill workers, domestic servants.</i></p>
		<p><i>H12 (PSHE) - that bacteria and viruses can affect health and that following simple routines can reduce their spread.</i></p> <p><i>H23 (PSHE) - About people who are responsible for helping them stay healthy and safe; how they can help these people to keep the healthy and safe.</i></p> <p><i>R7 (PSHE) - to understand that their actions affect themselves and others.</i></p> <p><i>R11 (PSHE) - to work collaboratively towards shared goals.</i></p> <p><i>H2 (PSHE) - how to make informed choices</i></p> <p><i>L1 (PSHE) - to research, discuss and debate topical issues, problems and events that are of concern to them and</i></p>	<p><i>Develop a chronologically secure knowledge and understanding of British history and develop a sense of empathy of how life was for children and know why periods of time changed.</i></p> <p><i>I can explain what life was like for a child in Victorian Britain and know why they worked.</i></p>	<p><i>H10 (PSHE) - to recognise, predict and assess risks in different situations and decide how to manage them responsibly</i></p> <p><i>H23 (PSHE) - about people who are responsible for helping them stay healthy and safe; how they can help these people to keep them healthy and safe.</i></p> <p><i>L10 (PSHE) - to recognise the role of voluntary, community and pressure groups, especially in relation to health and wellbeing.</i></p> <p><i>Construct informed responses that involve thoughtful selection and organisation of relevant historical information what jobs children did; worked in coalmines, chimney sweeps, farm hands, mill workers, domestic servants.</i></p>						

			<i>offer their recommendations to appropriate people</i>		<i>I can research and write about the key roles children had in Victorian Britain.</i>
Literacy	What is a biography. Features of a biography. Looking at information and how it is organised.	Creating categories for a biography. Designing topic sentences for paragraphs.	History links to Victorians as we are writing a biography on a famous Victorian. Beginning with famous nurses and linking to the Nightingale hospitals in use during the pandemic. Links to PSHE and also raising the concept of racism with Mary Seacole and how she was prevented from becoming a nurse.	A comparison between street children and those children from wealthy families. Looking at case studies of two children for comparison – work to be continued in History section.	A detailed look at the jobs that Victorian children did. The first to look at is a trapper. During listening, the children are to complete a task question as they gather information.
Links to learning		Ppt designed by me and uploaded to the website.	https://www.youtube.com/watch?v=jONlz7vaMnU https://metro.co.uk/2020/05/12/boris-johnson-florence-nightingale-tribute-12689532/ https://www.bbc.co.uk/teach/school-radio/history-ks2-mary-seacole-video/zbphxyc	https://www.bbc.co.uk/teach/school-radio/history-victorians-street-children/z6b3nrd https://www.bbc.co.uk/teach/school-radio/history-victorians-life-in-a-wealthy-victorian-family/z4bbscw	https://www.bbc.co.uk/teach/school-radio/history-victorians-trapper/zvspmfr
Objectives	Identifying how language contributes to meaning; exploring the meaning of words in context.	Identifying how language, structure and presentation contribute to meaning. Reading books that are structured in different ways and reading for a range of purposes.	Retrieve and record and present information from non-fiction. Provide reasoned justifications for their views.	Distinguish between statements of fact or fiction.	Increasing familiarity with a wide range of books. Continue to read a wide range of books.

<p>Reading</p>	<p>Read through the vocabulary pdf.</p> <p>Next find two antonyms for the following words:</p> <p>REMARKABLE TRIUMPHED INITIAL EXTREME STREWN</p>	<p>Share the text “Why Climb Everest” with another human at home with you! Or even your pet will do – but read aloud so you can practice using expression and pronunciation.</p> <p>Discuss the pictures and the information with somebody – perhaps even over a video call with your grandparents?</p> <p>Think about your antonyms from yesterday, would they all make sense now that you have read the text? If not, see if you can find some more that do.</p>	<p>Answer the questions on the attached sheet “Why Climb Everest”</p>	<p>Create a fact file for Everest. Use the “Why Climb Everest” sheet and the sheets from “Wonders of the World” and “Earth Matters” to help you.</p> <p>Make sure that you include the following information:</p> <ul style="list-style-type: none"> • Where is it? • What is it like? • What is the climate like? • What species of animal live there? 	<p>Free reading!!</p> <p>Spend 30 mins (or more if you like) reading to yourself or out loud to another human or your pet. (My dog really loves me reading to her – she is probably waiting for me to say “treat” or “walkies” 😊)</p> <p>Why not build a “reading den”? – somewhere comfy and snug where you can enjoy a peaceful time enjoying your book.</p>

Spellings	<p>Words from the Year 5/6 list:</p> <p>Correspond, criticise, curiosity, define, desperate, determined, develop, dictionary, disastrous, embarrass, environment, equip, equipped, equipment</p>				
Mathletics	<p>Work set according to the individual needs of the children.</p>				

Dear 5/6B Year 5 children,

I hope that you have had a lovely weekend with your families. Please don't be disheartened that we are all back at home, I am busy collecting together all of our learning that I had planned so it is ready to go onto the school website ready for Monday. I will date each piece of work so that you know when to do it. I will also date the resources so that you know which is which. The answers are at the very bottom and are TOP SECRET until you have completed the worksheet.

My cheeky dog, Bailey, is quite pleased that I will be at home for the next two weeks and I think she is looking forward to following me all over the place like my little shadow ☺. I am looking forward to being able to read some of the lovely books from our class bookshelf and to be able to write some more book reviews for our treasure chest of ideas! I will be in touch with Mrs Mulhall and we will get on with planning our work for when we return to school; so lots to look forward to!

Keep smiling, keep busy and soon we will see you all again.

Keep safe,

Mrs Birchenall and Mrs Mulhall

Literacy	Maths	Guided Reading
<p>Monday 21 September BIOGRAPHIES What is a biography? A biography is an account of someone's life written by someone else.</p> <p>What type of people have a biography written about them? People who are well-known or famous often have biographies written about them. These may include historical figures, such as Queen Victoria or sports people such as Usain bolt.</p> <p>Let me introduce you to our fictional character Isanu Blot - a Premiership footballer (not really, I made him up!). Looking at the sheet, which facts do you think should be included in his biography? Highlight the ones you choose.</p>	<p>Monday 21 September Roman Numerals Please find the teaching video by following this link. I am following the White Rose mixed age planning which incorporates all of the objectives for Year 6 and Year 5. https://whiterosemaths.com/homelearning/year-5/10672-2/</p> <p>Watch the teaching video and the teacher will pause at certain points for you to complete the worksheet. The worksheet is listed below.</p> <p>I have included another worksheet to complete after the first. Remember I explained to you which is which. Just like in our TYM textbooks, there are</p>	<p>Monday 21 September Read through the vocabulary slides that I have created for you. It is after this table of instructions.</p> <p>Next find two antonyms (a word with the opposite meaning) for each of the following words:</p> <p>REMARKABLE TRIUMPHED INITIAL EXTREME STREWN</p>

<p>For each fact you have highlighted, look at the next sheet and decide which paragraph the information should go in.</p> <p>Read the slides of his biography and highlight examples of the following which are all features of a biography:</p> <ul style="list-style-type: none"> • written in third person • mainly written in the past tense • written in chronological order (the order events occur in) • information organised into paragraphs including an introduction (to orientate the reader), key events and a conclusion • includes factual information. 	<p>3 levels. Each worksheet has a star on it. Inside the star is a letter. D = column A from TYM (easier version); E = column B from TYM (normal version); GD = column C from TYM (harder version). Choose the version you feel you can do successfully.</p>	<p>If you do not have a thesaurus handy at home, then there are plenty available online. Try some of these:</p> <p>www.collinsdictionary.com/ www.kidthesaurus.com/ www.wordsmyth.net</p>
<p>Tuesday 22 September Creating categories Look at the ppt/pdf for creating categories that I have made. Follow the instructions on each slide.</p> <p>If you are finding it hard to come up with ideas, then use the sheet I have included below.</p> <p>Then move onto the topic sentences part of the ppt/pdf. Follow the instructions.</p> <p>All the sheets are included below in Tuesday's section.</p>	<p>Tuesday 22 September Place Value Mini Assessment Now we have reached the end of the Place Value block of work, I had planned a mini-assessment. I have attached it below. Complete it to the best you can do. I have included the answer sheet (remember, it is TOP SECRET until you have completed the sheet).</p> <p>If you have got any wrong, then as always, complete your corrections.</p> <p>If you made any mistakes, or found any area tricky, then go onto Mathletics to practice some more.</p>	<p>Tuesday 22 September Share the text "Why Climb Everest" with another human at home with you! Or even your pet will do - but read aloud so you can practice using expression and pronunciation.</p> <p>Discuss the pictures and the information with somebody - perhaps even over a video call with your grandparents?</p> <p>Think about your antonyms from yesterday, how much will they have changed the meaning of the text? Can you think of any further antonyms today? Have fun changing the meaning of the text.</p> <p>Remember, if you don't have a thesaurus handy, you can use the online versions I mentioned yesterday.</p> <p>IF YOU ARE FINDING IT HARD TO READ THE TEXT THEN IT CAN BE FOUND USING THE FOLLOWING LINK:</p>

		https://media.bloomsbury.com/rep/files/Everest%20Teachers%20Notes%20Bloomsbury.pdf
<p>Wednesday 23 September A bit of history before we have all the information we need to write our biographies! We will be writing about one of three key people who helped Victorian children.</p> <p>In KS1 you will have learnt about some famous Victorian people:</p> <ul style="list-style-type: none"> • Florence Nightingale (1820-1910); an English woman who was the founder of modern nursing. She trained nurses during the Crimean War. • Mary Seacole (1805-1881); a British-Jamaican businesswoman who set up the "British Hotel" behind the lines in the Crimean War to provide relief for wounded servicemen. • Edith Cavell (1865-1915); a British (Norfolk) nurse working in German-occupied Belgium during WWI. She helped 100s of British, French and Belgian soldiers escape the Germans and was arrested, tried and executed in 1915. • Queen Victoria (1819-1901) <p>Watch this video which is about 11 mins long: https://www.youtube.com/watch?v=jONlz7vaMnU</p> <p>Next watch the following newsclip: https://metro.co.uk/2020/05/12/boris-johnson-florence-nightingale-tribute-12689532/</p> <p>At the beginning of the pandemic there was a very real worry by the government that the hospitals might not be able to cope and so some key buildings</p>	<p>Wednesday 23 September Add two 4-digit numbers - more than one exchange</p> <p>Watch the following video using the following link: https://vimeo.com/458471350</p> <p>Complete the worksheet when the teacher asks you to.</p> <p>After you have completed the worksheet, there are some more worksheets for you to complete. Remember the information about the levels from the sheets on Monday. D = easier; E = normal; GD = trickier.</p>	<p>Wednesday 23 September Answer the questions on the attached sheet "Why Climb Everest"</p>

<p>in England were converted to hospitals. They were named Nightingale hospitals. Can you name where any of them were built?</p> <p>Now that you have watched both video clips why do you think that Boris Johnson (our Prime Minister) decided to name the new hospitals which were created to deal with Covid 19 after this famous nurse? What did Florence realise was of vital importance in order for the injured men to recover? How is that important nowadays? Can you think of a parallel?</p> <p>Find out about Mary Seacole by watching this video clip: https://www.bbc.co.uk/teach/school-radio/history-ks2-mary-seacole-video/zbphxyc</p> <p>Find someone to discuss the following with: Was it right for Mary to be refused to work as a nurse just because of the colour of her skin?</p>		
<p>Thursday 24 September Children's lives weren't always fair in Victorian times. We are going to look at a few children and the lives that they led over the next couple of days. There will be a task to complete whilst listening to the clips.</p> <p>Listen to Jacko's story - Dogs and rats. Click here: https://www.bbc.co.uk/teach/school-radio/history-victorians-street-children/z6b3nrd</p> <p>Poor children wanted to work for money because otherwise they would go hungry. Better jobs were often taken by older people so poor children were forced to do the worst jobs of all or starve. What</p>	<p>Thursday 24 September Add whole numbers with more than 4 digits</p> <p>Watch the video using the following link: https://vimeo.com/458471908</p> <p>Complete the worksheet when the teacher asks you to.</p> <p>After you have completed the worksheet, there are some more worksheets for you to complete. Remember the levels from yesterday.</p>	<p>Thursday 24 September Create a fact file for Everest. Use the "Why Climb Everest" sheet to help you. You could also use the internet.</p> <p>Make sure that you include the following information:</p> <ul style="list-style-type: none"> • Where is it? • What is it like? • What is the climate like? • What species of animal live there?

<p>jobs are done for you in your life that you find disgusting? <i>During listening:</i> one question to focus on - 'Why were rats caught?'</p> <p>Next listen to Emily's story: https://www.bbc.co.uk/teach/school-radio/history-victorians-life-in-a-wealthy-victorian-family/z4bbscw</p> <p>Listen to episode 1: Emily's life. Boys from wealthy families would commonly be sent away to boarding school. Girls were commonly educated at home by a governess. What would it be like to be taught on your own by a teacher that lived in your house? <i>During listening:</i> one question to focus on - 'What are the differences between the ways wealthy boys and girls were taught?'</p> <p>Listen to episode 2: Emily and the Beetle. In the Victorian era girls and boys were expected to behave in very different ways to each other. Both boys and girls were expected to obey their parents and teachers without any disagreement. What would it be like to live with parents and teachers being very strict all the time? <i>During listening:</i> one question to focus on - 'What choices do wealthy children have in the Victorian era?'</p>		
<p>Friday 25 September Jobs children did in Victorian Britain - THE TRAPPER</p>	<p>Friday 25 September Subtract two 4-digit numbers - more than one exchange</p>	<p>Friday 25 September Free reading!!</p>

Jimmy Turton introduces himself. He's twelve years old and he's about to start his first day working in the mine as a 'trapper' - working alone in the pitch darkness, opening and closing trap doors to allow coal carts along the tunnel.

Listen to the three audio files on the website:

<https://www.bbc.co.uk/teach/school-radio/history-victorians-trapper/zvspmfr>

Episode 1 - Jimmy's first day

In a coal mine during the Victorian era there were no electric torches or lights on the ceiling, only candles and lamps that burnt oil. What would it be like to be underground with no electric light?

During listening: one question to focus on - 'What different parts of the mine are named in the programme?'

Episode 2 - Jimmy Falls Sick

One big danger in the mine was 'firedamp,' gasses that could build up and explode if lit by candles or oil lamps. What else would you worry about if you were working down a mine?

During listening: one question to focus on - 'Why does Jimmy want go to work even though he is ill?'

Episode 3 - Danger in the mine

Children worked as 'trappers', opening and closing doors that controlled the circulation of air in the mine tunnels. They often sat completely alone for up to 12 hours. How would you feel if you were left on your own in the dark for hours?

During listening: One question to focus on - 'What are the dangers of working down the mine?'

After listening to the three episodes, draw what you think the mine looks like above ground and below ground.

Three things to include in your drawing:

- cage - lowered from the surface by a big coal powered engine
- seams - where the coal is mined from

Watch the video using the following link:

<https://vimeo.com/459399023>

Complete the worksheet when the teacher asks you to.

After you have completed the worksheet, there are some more worksheets for you to complete.

Remember the levels from yesterday.

Spend 30 mins (or more if you like) reading to yourself or out loud to another human being or your pet. (My dog really loves me reading to her - she is probably waiting for me to say "treat" or "walkies" ☺).

Why not build a reading den? Somewhere comfy and snug where you can enjoy a peaceful time enjoying your book.

<ul style="list-style-type: none"> • trap-doors - in tunnels away from the seam to control the way the air moves 		
<p>History Using the information from your literacy lessons this week, compare the lives of wealthy Victorian children with children today.</p> <p>Divide your page into two columns entitled 'Wealthy Victorian children' and 'Modern children'.</p> <p>Write a few sentences in each column for each of these subheadings:</p> <ul style="list-style-type: none"> • education for girls • education for boys • discipline • Day trips to the seaside 	<p>Spelling Correspond, criticise, curiosity, define, desperate, determined, develop, dictionary, disastrous, embarrass, environment, equip, equipped, equipment</p>	<p>DT/Science Bridge Challenge</p> <p>We are challenging you to build a bridge. The full details are on your sheet - please remember you do not need to buy anything for this activity; use items from the recycling at home.</p> <p>This homework will last two weeks. This will give you plenty of time to collect the items you need and to plan the best way to construct your bridge shape. Enjoy spending time thinking about our lessons in school about bridge building in DT and properties of materials from our Science. Good luck!</p>

MONDAY 21/9/20 ROMAN NUMERALS

Roman numerals

1 Complete the tables.

10		30	40	50	60		80	90	100
X	XX		XL	L		LXX			C

100	200	300	400		600	700		900	1,000
		CCC		D	DC		DCCC		M

2

What year is shown at the end of the film?

3 Write the numerals and Roman numerals to complete the diagrams.

4 Dora and Amir are writing 520 in Roman numerals.

DXX

Amir

VCXX

Dora

a) Who is correct? _____

b) What mistake has the other person made?

5 Complete the table.

Numerals	Words	Roman numerals
52		
	six hundred and thirty-five	
		CMXCI
	four hundred and seven	
		DCCCXXXIX

6 Match the calculations to the answers.

XXVII + III	CDLXX
D - XXX	DC
M ÷ D	CCCL
DCCC - CC	XXX
L × VII	II

7 Complete the sequences.

- a) V, X, , XX, , XXX, ,
- b) C, CL, , CCL, CCC, , ,
- c) X, XX, XXX, , , LX, ,
- d) III, , IX, , XV, XVIII, ,

8

- a) What month is shown? _____
- b) What year is shown?
- c) Write today's date in Roman numerals.

Which facts about Inasu Blot do you think should be included in his biography?

Born on 18 September 1992	Broke his leg when he was ten	Signed for Arsenal in 2013
He enjoys eating marshmallows	Attended Clark Primary school	His maths teacher was Mr Hedges
Enjoys golf in his spare time	Got his first bike at the age of 8	Lived in Basingstoke until he was 16
Was picked for the England squad in 2016	Favourite TV soap is EastEnders	Became footballer of the year in 2014
Joined Torquay United in 2008	His sister has two children	His mum is called Tara
Youngest England player	Passed 4 GCSEs	Captain of U15
His brother is a teacher	He is allergic to peanut butter	Went on holiday to Greece in 2015

Where would you include the information?

1. Introduction – introducing your subject

4. Achievements

2. Early life

5. Personal life and interests

3. Early career

6. Conclusion – looking to the future

Modelled writing – the introduction

- Inasu Blot **is one of** England's **most successful** footballers. **At the age of** 24, he has earned many accolades **and is expected to be** at the top of his game for many years to come.
- Marina Harper **is one of** Europe's **most successful** netballers. **At the age of** 17, **she has** already been capped for England six times **and is expected to be** announced as captain for the next World Cup.

Move on

Modelled writing – the early life

- Blot **was born on** 18 September 1992 in Basingstoke **where he was** brought up by his mother, Tara, **until he was** 16. He was the youngest of three children who all attended Clark Primary School on the outskirts of the town. Having broken his leg after falling from a tree at the age of 10, Inasu did not shine at football until he was in year 8. **He soon became** the leading goal scorer for the U15 team as well as leading the team as captain. **Although** he worked hard at school, he left with only four GCSEs.

Move on

Modelled writing – early career and achievements

- **Aged 16**, Blot **made the decision** to become a professional player. **Although** many clubs were interested in him, he chose to join Torquay United in 2008. At Torquay, he made regular appearances in the U21 team **and, before long**, was starting on the substitute bench for the first team. During one match, he was spotted by an England scout **and consequently** was picked for the national team for a friendly in November 2009, **thus making him** the youngest England player at the age of 17 years and 62 days.
- **It was not long before** the premier ship clubs were interested in Inasa; in 2013 he signed for Arsenal **after a brief spell** at Everton. In his first season at Arsenal he scored over 100 goals **which led to him** being voted Footballer of the Year in 2014. He was also nominated the BBC Sport's Personality of the Year coming a close second to Lewis Hamilton.

Move on

Modelled writing – personal life and interests

- **Alongside** his footballing skills, Blot is also a keen and skilled golfer playing off a handicap of 14. He has played alongside some of the country's top golfers and has often stated that **if he were** to take up a second sporting career it would be golf.

Move on

Conclusion

- **Looking to the future** though, it seems that Blot still has an illustrious footballing career ahead of him. **He has been** playing for Arsenal for the last three seasons and states that he has no intention of leaving soon: "Arsenal is a great club and I still have more to achieve there. I am still young and I would love to become captain very soon."

The subjunctive form

- If you were paint, what colour would you be? 
- If you were an animal, what animal would you be? 
- If you were weather, what weather would you be? 
- If you were a drink, what drink would you be? 
- If you were music, what music would you be? 

If I were an animal,
I'd be an elephant.

If I were paint,
I'd be blue.

remarkable

TIBET

re*mark*able adjective \ri-'mär-ks-bal\ 48

worthy of being or likely to be noticed especially as being uncommon or extraordinary

From the book: *What made Hillary and Tenzing's achievement all the more remarkable was...*

Don't Settle For Ordinary When You Can Have Extraordinary

triumphed

triumph verb

- 1 : to celebrate victory or success with much rejoicing
- 2 : to gain victory : win

From the book: *...they had triumphed where so many others had failed before.*

invested

invest verb

- 1 : to lay out money so as to return a profit <invest in bonds and real estate >
 - 2 : to expend for future benefits or advantages <invest time and effort in a project >
 - 3 : to involve or engage especially emotionally <were deeply invested in their children's lives >
- in*ves*tor /-'ves-tər/ noun

From the book: *A huge amount of time, effort and money had been invested in these attempts.*

unconquered

con*quer verb

Opposite of this

- 1 : to get or gain by force of arms <conquer a country >
 - 2 : to defeat by force of arms <conquered all their enemies >
 - 3 : overcome subdue <conquer a habit >
 - 4 : to be victorious
- con*quer*or /-kən-ər/ noun

From the book: *Everest would remain the ultimate unconquered climbing challenge.*

Set foot

phrase. If you say that someone **sets foot** in a place, you mean that they enter it or reach it, and you are emphasizing the significance of their action. If you say that someone never **sets foot** in a place, you are emphasizing that they never go there.

From the book: *Hillary and Tenzing became the first humans to set foot on its summit.*

debates

de*bate *noun* \ di- bāt \ 40

a : the discussion of a motion before a legislature
b : a regulated discussion of a problem between two matched sides

From the book: *However, debates about its exact height still rumble on.*

cruising

cruise *verb* \ 'kriz \

- 1 : to travel by boat often stopping at a series of ports
 - 2 : to travel for enjoyment
 - 3 : to travel at the best operating speed <the *cruising* speed of an airplane >
- cruise *noun*

From the book: *...just lower than the cruising height of a jumbo jet.*

initial

ini*tial *adjective* \ in- 'ish- əl \ 40

1 : of, relating to, or existing at the beginning : earliest <*initial* stages of a disease >
 2 : placed or standing at the beginning : first <the *initial* letter of a word >
 --ini*tial*ly /-'ish-(ə-)lə/ *adverb*

From the book: *After they had made their initial measurement ...*

extreme

From the book: *Everest is an extreme place.*

ex*treme *adjective* \ ik- 'strēm \ 40

1 : existing to a very great degree <*extreme* heat > <*extreme* poverty >

strewn

From the book: *The path
to the top is strewn with
death traps...*

strew verb \ 'strü \

1: to spread (as seeds) by scattering

2: to cover by or as if by scattering something over or on <strewing the highways with litter >

WHY CLIMB EVEREST?

'Because it's there' – George Mallory, 1921

What made Hillary and Tenzing's achievement all the more remarkable was that they had reached where so many others had failed before. Climbers had been trying to reach the top of Everest for more than 30 years.

A huge amount of time, effort and money – not to mention national pride – had been invested in these attempts. Despite this, each one had ended in disappointment and some even, in death.

As the highest mountain in the world, Everest would remain the ultimate uncompleted climbing challenge, until 1953, when Hillary and Tenzing became the first humans to set foot on its summit.

Map of the Himalayas showing where Everest is on the border of Tibet and Nepal.

Everest was the only mountain in the world to have a 30,000-foot summit in the 19th century. It was the only mountain in the world to have a 30,000-foot summit in the 19th century. It was the only mountain in the world to have a 30,000-foot summit in the 19th century.

The Himalayas are home to a wide range of life, including a large number of species that are found nowhere else in the world. This includes a wide range of species that are found nowhere else in the world.

Not a handbag piece

In a few weeks each year the weather can change from warm and sunny to cold and snowy. This is because the weather can change from warm and sunny to cold and snowy.

The path to the top is made up of steep, rocky slopes. It is a very difficult climb, and it is a very difficult climb.

But in the early 19th century, many people were trying to reach the top of Everest. They were trying to reach the top of Everest.

As Hillary and Tenzing were the first to reach the top of Everest.

It was a very difficult climb, and it was a very difficult climb. It was a very difficult climb, and it was a very difficult climb.

Portrait of George Everest

George Everest was a British surveyor who worked in India. He was a British surveyor who worked in India.

He was a British surveyor who worked in India. He was a British surveyor who worked in India.

He was a British surveyor who worked in India. He was a British surveyor who worked in India.

Mountains are not just a natural beauty. They are a natural beauty. They are a natural beauty.

They are a natural beauty. They are a natural beauty. They are a natural beauty.

Two people are climbing a steep, snowy mountain slope. They are climbing a steep, snowy mountain slope.

The race to climb Everest had begun...

If you are really stuck ...

Think about a park that you know well.

Here are various ideas that you might find relevant:

swings and slides	children laughing	bowling green	closed down toilets	playing football
ducks	pond	flowers	safety	football pitches
dog poo	graffiti	park keeper	green open space	trees
keep out after dark	bandstand	dogs	runners	valuable space
feeding ducks	damage/vandalism	keep fit	all ages use it	mowing the grass
expensive to look after	lots of grass	rules		

Write some of these ideas on your cards or sticky notes. Add some other ideas about your park if you like.

Here are some categories you could use to begin to sort out your park ideas.

	What the paragraph is about
<p>Exeter Forest School specialises in outdoor learning; engaging students in forest school activities; providing alternative education, adult courses and team building activities.</p>	
<p>We offer a wide range of activities for people of all ages. We work with schools to create bespoke session plans ranging from one day to a whole term, weaving the curriculum into excellent Forest School activities. We offer facilities for birthday parties, holiday clubs, toddler clubs, home education groups and team building.</p>	
<p>Our staff have experience of working with young adults with behavioural problems and mental health issues and we believe Forest School can be a great tool for furthering the educational possibilities of young people facing those challenges.</p>	

Paragraphs	What the paragraph is about
<p><u>Tigers' size and weight also varies.</u> They can be anything from 1.5 to 3m long, and 75 to 325kgs in weight. Siberian tigers are the largest, measuring typically 3.3m in length and 300kg in weight. Tigers' long tails can add as much as another metre to their length.</p>	

Paragraphs	What the paragraph is about
<p>Tigers can live in hot or cold climates. Larger sorts of tiger – such as the Siberian tiger - mainly live in the cold north of Asia, while smaller sorts prefer warmer countries in the south of Asia, such as India and Indonesia. These tigers' natural habitats include dry forests, mangrove forests and tropical forests. All tigers like the cover they find in forests.</p>	
<p>Tigers are meat eaters. Much of their prey is large - pigs, deer, even rhinos or elephant calves. Although tigers have sharp teeth and claws, they actually kill their prey by suffocating it between their powerful jaws. In most cases, their prey gets away, so tigers have to attack many times to be sure of getting a meal.</p>	

Paragraphs	What the paragraph is about
<p>Tigers don't like company. Each tiger tends to hunt and live on its own. They stick to their own territory, but this can be enormous. The territory claimed by a very large tiger can be as large as 4000 square miles. Like pet cats, tigers mark their territory. Scratch marks on trees are often tiger boundary markers.</p>

WEDNESDAY GUIDED READING

QUESTIONS TO ANSWER

LESSON TWO

Why Climb Everest? *(pages 6–7)*

- Use the map on page 6 to identify the position of Mount Everest. It sits on the border between two countries – which two countries?
- Mount Everest is situated in which **continent**?
- For how many years before Hillary and Tenzing's achievement had climbers been trying to reach the top of Mount Everest?
- How high is Mount Everest, according to 'recent measurements'?
- List at least two species of animal that you can see in the illustration. How do you think they would need to adapt to survive in harsh conditions on the mountain?
- Why can no animal or plant survive at the 'highest points' of the mountain?
- Why do any climbers need to 'battle for every step they take' on Everest? List two reasons.

ADD WHOLE NUMBERS WITH MORE THAN 4 DIGITS

Add whole numbers with more than 4 digits (column method)

1 Complete the calculations.

a)

Th	H	T	O
100	100	10 10	1 1
100	100	10 10	1 1

Subtract More than 4 Digits

Subtract More than 4 Digits

9a. Calculate the missing answer.

$$89,006 - 71,592 =$$

VF

9b. Calculate the missing answer.

$$86,001 - 59,357 =$$

VF

10a. True or false?

9 ten thousands and 70 tens subtract fifty-nine thousand, 20 tens and 8 ones equals forty thousand, four hundred and ninety-two

VF

10b. True or false?

4 ten thousands and 7 ones subtract 2 ten thousands, 48 hundreds and 9 ones equals nineteen thousand, five hundred and eight

VF

11a. Use <, > or = symbols to complete the subtraction.

7 ten thousands and 18 ones subtract forty-four thousand, 62 tens and 1 one equals...

$$70,018 - 44,621 \quad \square \quad 25,396$$

VF

11b. Use <, > or = symbols to complete the subtraction.

5,000 tens and eight subtract 19 thousands, 99 tens and 9 ones equals...

$$50,008 - 19,999 \quad \square \quad 30,090$$

VF

12a. Circle the correct answer for the subtraction.

$$40,709 - 39,784 =$$

A. 92 tens and 6 ones

B. nine hundred and twenty-five ones

C. nine hundred and twenty-five tens

VF

12b. Circle the correct answer for the subtraction.

$$98,042 - 83,009 =$$

A. 15 thousands and 1 one

B. 150 hundreds, 33 tens and 3 ones

C. 15 thousands and 33 ones

VF

BRIDGE CHALLENGE

The challenge

We are challenging you to build a bridge that has a span of 30cm wide and a minimum of 15cm high in the centre, that is able to hold 500g - e.g. a bag of sugar or rice - for 10 seconds without collapsing.

What you will need:

Get together some things that you can use to build it before you start. There are no rules for this - you can do this just with things you have around your home. Some examples of things you might use are:

- Straws
- Blu-tack/playdough
- Rubber bands
- String/wool
- Paper/newspaper/old magazines
- Egg cartons/cardboard tubes
- Scissors
- Sellotape/glue
- Card/cereal boxes/packaging

Remember: these can all be (clean) items from the recycling rubbish. Be inventive and resourceful. All great designers have a budget to work to and need to make their bridges cost-effective. What better way than to use only recycled items.

Things to think about before you start:

- Think about the types of bridge you have seen. The different types of bridge (beam, arch, truss etc) are called its 'form'. You can see more about these below. Which form of bridge are you going to build?
- Your bridge will need to be strong enough to hold 500g. How will you make your bridge strong enough? In the past, bridges were often made of stone or timber, but modern bridges are commonly made of materials like concrete and steel, which are heavy but very strong.

Did You Know? (Yes, you do actually, as we have done this in class 😊)

Did you know that some shapes are better at absorbing loads than others? For example, triangles are particularly strong because they create a very rigid structure that spreads the load from a single point to a wider area. Think about what shapes you could use in your bridge. Remember our lesson about elephants sitting on shapes and what would happen?

Information to remind you and to help you with your design

There are four main types of bridges:

1. Beam bridges are made of horizontal beams supported by piers at each end.
2. Truss bridges are a combination of triangles.
3. Arch bridges are made up of arches supporting the bridge and are naturally strong.
4. Suspension bridges are long bridges, such as the Golden Gate Bridge.

Two key types of forces involved in building any structure are tension and compression. A tension force is one that pulls materials apart (like two teams pulling a rope during a game of tug-of-war). A compression force is one that squeezes material together (like pushing down a spring and making it shorter). Each type of bridge deals with the important forces of tension and compression. Remember the information on the website:

<http://www.pbs.org/wgbh/buildingbig/lab/forces.html>

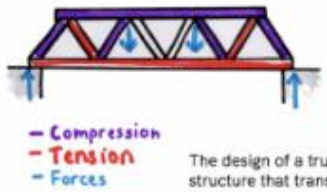

THE FOUR MAIN TYPES OF BRIDGES:

1. BEAM BRIDGE

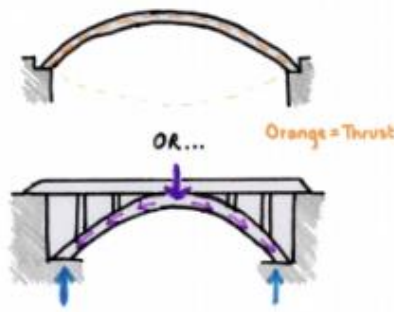

When a single beam spans any distance, the very top of the beam gets the most compression, and the very bottom of the beam experiences the most tension. The beam needs to be strong to resist these forces. You also need to apply weight at both ends to counteract the bending at the centre.

2. TRUSS BRIDGE

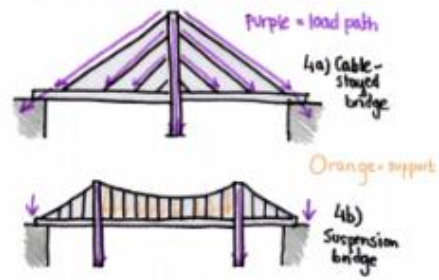

The design of a truss creates a rigid structure that transfers the load from a single point to a wider area, making the structure strong.

3. ARCH BRIDGE

The semi-circular structure distributes compression through its entire form and diverts weight onto its two abutments, the part of the bridge that directly take on pressure. It needs firm foundations, to allow all the parts to push back against each other.

4. SUSPENSION BRIDGE

The towers support the majority of the weight as compression pushes down on the suspension bridge's deck and then travels up the cables, ropes or chains to transfer compression to the towers. The towers then dissipate the compression directly into the earth.

Evidence!!

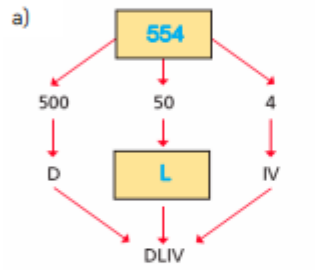

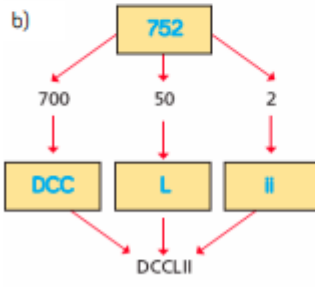

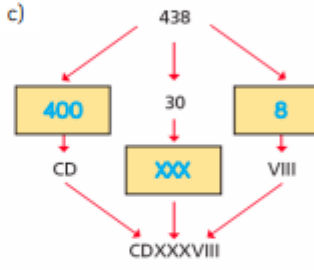

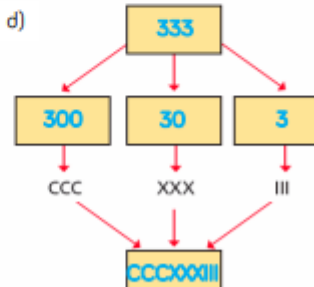

We would like you to take a photo of your finished design before testing; during the test; and shortly after the test to see what state your bridge is in. Please ask an adult to help you with this. You will need to ask the adult to send your bridge photos by email to enquiries@cranwell.lincs.sch.uk with your teacher's name in the subject of the email. You will also need to ensure your name is clear too! Alternatively, you could save it to a memory stick and bring that instead so we can see your wonderful hard work.

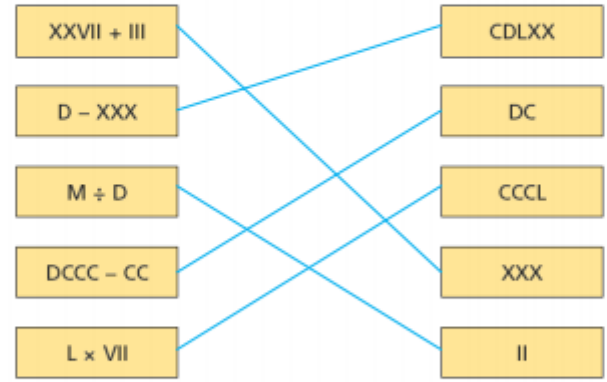

Good Luck everyone, we are really looking forward to seeing your wonderful designs - Mrs Birchenall

Where would you include the information? Answers

1. Introduction

- One of England's most successful footballers

2. Early life

- Born on 18 September 1992
- Broke his leg when he was 10
- Attended Clark Primary school
- Captain of the U15team
- His mum is called Tara
- Passed four GCSEs

3. Early career

- Joined Torquay United in 2008
- Youngest player to play for England

4. Achievements

- Signed for Arsenal in 2013
- Became footballer of the year in 2014

5. Personal life and interests

- Enjoys golf in his spare time
- A second sporting career would be golf

6. Conclusion

- He continues to enjoy playing for Arsenal

Georgia says that the number is multiple of 5

Is Georgia correct? Explain your answer.

Yes she is correct because the number has a multiple of 5 in its 1s place.

Yes because it is in the 5 times table.

1 mark

- 2 Complete the missing numbers.

$$47,603 = 40,000 + \underline{7,000} + 600 + 3$$

$$\underline{50,374} = 50,000 + 300 + 70 + 4$$

$$80,000 + 7,000 + \underline{1,300} = 88,300$$

3 marks

- 3 In a game, people have some play money to buy houses. Each person starts with the following play money.

£100,000	£10,000	£1,000
£100,000	£10,000	£1,000
£100,000	£10,000	
£100,000	£10,000	
	£10,000	

How much money do they each start with?

£ 452,000

7	<p>a) 265 b) 8,974 c) 9,128</p>
8	Dexter has not added the 1 digit that has been exchanged from the previous column. Eva has not lined up the digits correctly.

Reasoning and Problem Solving Add More Than 4-Digits

Developing

1a. Gary is correct because his total income was £21,275 which is greater than £20,000. Jay's income was £19,470.

2a. Various answers, for example:

	1,000s	100s	10s	1s
	●●●●	●●●●	●	●●●●
+	●●●●	●●●●	●●●●	●●●●
1	2	1	9	8

3a. Steph's answer should be 32,215. She has forgotten to exchange the ten hundreds into the thousands column.

Expected

4a. Alan is correct because $£28,568 + £7,099 = £35,667$ which is greater than Oscar's total of £33,944.

5a. Various answers, for example:

	10,000s	1,000s	100s	70s	1s
	●●●●	●●●●	●●●●	●●●●	●
+	●●●●	●●●●	●●●●	●●●●	●●●●
7	2	1	8	6	

6a. Jaiden's answer should be 102,210. He has forgotten to add the one hundred that he has exchanged from the tens column.

Greater Depth

7a. Gabby is correct because her total was £78,357. Sandy's income was £78,405 which is £48 higher than Gabby's.

8a. Various answers, for example:

	10,000s	1,000s	100s	10s	1s
	●●●●	●●●●	●●●●	●●●●	●●●●
+	●●●●	●●●●	●●●●	●●●●	●●●●
2	0	1	5	7	4

9a. Steve's answer should be 102,210. He has added the digits in the hundreds column up incorrectly.

Reasoning and Problem Solving Add More Than 4-Digits

Developing

1b. Jody is correct because her total income was £17,834 which is £3 less than Lynette's income of £17,837.

2b. Various answers, for example:

	10,000s	1,000s	100s	10s	1s
	●●●●	●●●●	●●●●	●●●●	●●●●
+	●●●●	●●●●	●●●●	●●●●	●●●●
3	9	6	4	1	

3b. Phil's answer should be 49,683. In the hundreds column, he has exchanged twenty tens (200) instead of ten tens (100).

Expected

4b. Emma is correct because $£30,837 + £10,865 = £41,702$ which is greater than Susie's total of £37,155.

5b. Various answers, for example:

	10,000s	1,000s	100s	10s	1s
	●●●●	●●●●	●●●●	●●●●	●●●●
+	●●●●	●●●●	●●●●	●●●●	●●●●
1	0	0	4	4	2

6b. Tilly's answer should be 115,730. In the hundreds column, she has exchanged twenty tens (200) instead of ten tens (100).

Greater Depth

7b. Mike is correct because $£65,363 + £6738 = £72,101$ which is Mike's total income. Danny's income was £65,363.

8b. Various answers, for example:

	10,000s	1,000s	100s	10s	1s
	●●●●	●●●●	●●●●	●●●●	●●●●
+	●●●●	●●●●	●●●●	●●●●	●●●●
1	7	3	5	5	6

9b. Giselle's answer should be 115,730. In the hundreds column, she has exchanged twenty tens (200) instead of ten tens (100).

FRIDAY 25/9/20

1	<p>a) 1,694 b) 1 hundred was exchanged for 10 tens, and one of the tens was then exchanged for 10 ones. c) 1,682 d) 802 e) $1,702 - 28 = 1,674$ $1,702 - 928 = 774$</p>																																																																
2	<p>a) 210 b) 209 c) 199 All the numbers are subtracted from 564. In part a) no exchanges were made. In part b) one exchange was made. In part c) two exchanges were made.</p>																																																																
3	<p>a) 3,399 b) 3,400 c) 3,401 2,036 is subtracted from all the numbers. In part a) 2 exchanges were made. In parts b) and c) no exchanges were made.</p>

7	<p>multiple possible answers, e.g: a) $2,353 - 1,064$ b) $7,640 - 2,351$ c) $7,420 - 6,531$</p>																																

Varied Fluency
Subtract More than 4 Digits

Developing

- 1a. 11,413
2a. False. The correct answer is 24,231.
3a. The answer is 25,111, so $67,582 - 42,471 < 25,112$.
4a. C. 13,122

Expected

- 5a. 20,756
6a. False. The correct answer is 75,908.
7a. The answer is 32,431, so $51,605 - 19,174 = 32,431$.
8a. C. 50,834

Greater Depth

- 9a. 17,414
10a. False. The correct answer is 31,492.
11a. The answer is 25,397, so $70,018 - 44,621 > 25,396$.
12a. B. nine hundred and twenty-five ones

Varied Fluency
Subtract More than 4 Digits

Developing

- 1b. 13,322
2b. False. The correct answer is 15,342.
3b. The answer is 23,642, so $45,894 - 22,252 = 23,642$.
4b. B. 11,414

Expected

- 5b. 16,724
6b. False. The correct answer is 22,388.
7b. The answer is 29,719, so $65,014 - 35,295 < 29,720$.
8b. B. 25,084

Greater Depth

- 9b. 26,644
10b. False. The correct answer is 15,198.
11b. The answer is 30,009, so $50,008 - 19,999 < 30,090$.
12b. C. 15 thousands and 33 ones
